

**Northern Pulp's proposed new effluent pipe will discharge into the Northumberland Strait...**

**10 km from the pulp mill, at the entrance to Pictou Harbour**

## **This is the effluent that killed Boat Harbour. Do you think it should be dumped into the Strait?**

Northumberland Fisherman's Association believes no one wants the Strait to become the new Boat Harbour.

Our answer: Only a closed loop, zero effluent system is acceptable for the new treatment facility. No effluent dumped anywhere.

Local councils will be discussing this issue in coming days.

Let your town or county councillor know what you think.

**NORTHUMBERLAND FISHERMEN'S ASSOCIATION**

**The Northumberland Fishermen's Association will be presenting information to:**  
**County Council • November 27, 7pm** | **Pictou Town Council • December 4, 6:30pm**  
Council meetings are open to the public.
