Dear Ms. MacKenna

On behalf of The Harbour Authority of Caribou directors and members, we wish to express our very real concern concerning the proposed effluent pipe by Northern Pulp, extending into our marine rich Northumberland Strait, in Pictou, Nova Scotia. We feel that a much more thorough examination of the certain repercussions to our fishing industry is not only warranted but imperative.

Please note our strong support for the request from fishermen's organizations from Nova Scotia, PEI and New Brunswick and Pictou Landing First Nation to have Northern Pulp's Effluent Treatment Project designated a project for Federal Environmental Assessment under Section 14 of the Canadian Environmental Assessment Act (CEAA) 2012.

Your's truly
